AT HOME COVID-19 SALIVA TEST KITS AVAILABLE at SMITH BUILDING

Winneshiek County Public Health has **At Home Saliva COVID-19 tests kits** available for the public use at no charge.

These test kits have been placed OUTSIDE in a small-indented area to the Right of the West entrance under the canopy of the Smith Building to pick up.

DO NOT enter the building If you are exhibiting symptoms.

You will then need to follow the instructions found in the box by obtaining the saliva and place in appropriate testing container and then send to the State Hygienic Lab. Results will be available 24 hours after the state lab receives the kit.

If you have additional questions, feel free to contact Winneshiek County Public Health at 563-382-4662.
